

PERSONAL PROFILE

Creative and detail-oriented developer focused on solving real-world problems through efficient and user-friendly applications. Skilled in web development, backend systems and UI design, with a passion for building impactful digital experiences and continuously learning new technologies.

EDUCATION

Gyan Ganga Institute of Technology & Sciences	Aug 2023 - Aug 2027
Bachelors of Technology - Computer Science Engineering (CGPA - 8.02)	M.P., India
Little Kingdom School	May 2022 - May 2023
Senior Secondary Education	M.P., India

TECHNICAL SKILLS

Skills -	Software Development, Web Development, Data Analysis
Languages -	C++, Python, JavaScript, SQL, HTML / CSS, TypeScript
Frameworks -	Django, FastAPI, Node, Express.js, Pandas, Numpy
Tools -	Git, Github, linux, AWS, Firebase, Figma, Jira, MongoDB Atlas

PROJECTS

RESQVERSE | HTML, CSS, JavaScript, Express.js, MongoDB Atlas

- Built a gamified disaster preparedness platform with 5+ interactive games and 10+ awareness modules.
- Improved user engagement by 40% through responsive UI design and interactive learning features.
- Developed a scalable backend system with secure authentication and optimized the platform performance by 30%.

NOTESNAP | HTML, CSS, JavaScript, Express.js, TypeScript, tesseract.js

- Built an intelligent screen-capture-to-notes conversion system with auto-pause/resume, window pinning, real-time OCR processing and batch AI-powered notes generation using AI API key.
- Enhanced study productivity by 45% through AI-based notes generation.
- Developed client-side storage system for screenshots and notes. Enabled single-batch processing of the entire study session while reducing API costs by 60%.

CERTIFICATIONS

Cisco CCNA 1, 2 & 3
Cybersecurity Essentials

Python 1 & 2

ACHIEVEMENTS

- Participated in Smart India Hackathon in 2025.
- Solved 100+ DSA Problems on [LeetCode](#).
